DIVISION OF MECHANICAL ENGINEERING  
SCHOOL OF ENGINEERING, CUSAT  

Program Specific Outcomes (PSOs)  

**PSO-1** Excel in product design, thermal and fluid engineering, and manufacturing systems with the acquired knowledge in mathematics, science, and engineering disciplines.  

**PSO-2** Be competent to analyze, interpret, and solve real life mechanical engineering problems.  

**PSO-3** Have the managerial skills to work effectively in a team and in a society by following ethical and environmental practices.
