

MECHANICAL ENGINEERING, SCHOOL OF ENGINEERING
COCHIN UNIVERSITY OF SCIENCE AND TECHNOLOGY
PROGRAMME SPECIFIC OUTCOMES

The graduates of the programme will

PSO 1	excel in product design, thermal and fluid engineering, and manufacturing systems with the acquired knowledge in mathematics, science , and engineering disciplines
PSO 2	be competent to analyze, interpret, and solve real life mechanical engineering problems.
PSO 3	have the managerial skills to work effectively in a team and in a society by following ethical and environmental practices
